

# By the Numbers

- **16,000** — basement and backyard suites in Calgary, according to city census and Canada Mortgage and Housing Company rental survey estimates, respectively. Anti-poverty groups believe that number is low.
- **550** – number of legal suites in the entire city of Calgary. This is only about 3% of the 16,000 total.
- **389** — Legal secondary suite applications between January 2008 and February 2014.
- **7, 8, 9, 11** — The 4 wards where councillors are willing to lift suite zoning rules as the city's "guinea pigs."
- **35,395** – number of R-1 (or RC-1, RC-1L) properties in wards 7,8,9, and 11 that would see their zoning changed.
- **76%** - percentage of properties in Ward 11 that would see their zoning changed.
- **32** — different reports that have come to council on secondary suites since 2005. Each time a vote was taken, it has not been approved.
